Quick Reference Guide Downloading TigerConnect - Android

How do I download the TigerConnect Android mobile app?

To download the latest version of TigerConnect for your Android device, you will need 1) a supported Android device and 2) an Google account* to download applications from Google's Play Store. See our System Requirements page to ensure your device is compatible with TigerConnect: <u>https://www.tigerconnect.com/system-requirements</u>). See below for steps on how to download TigerConnect:

1 Click on Play Store Icon

3 Tap INSTALL*

NOTE: After tapping **INSTALL**, you may need to accept additional permissions. Tap **ACCEPT** to continue the download process.

② Search for 'tigerconnect'.. Tap **TigerConnect - Clinical Solutions**.

(4) Tap **OPEN**. You're now ready to login and start using the TigerConnect app!

*If this is your first time downloading an app on your Android device, you may need to sign into a Google Account. This is required to download any applications, including TigerConnect, on your device. Please refer to your help desk for assistance with a Google account, as they may already have an account available for you.
